WHY DMEC?

About Us

The Disability Management Employer Coalition (DMEC) is the only association dedicated to providing focused education, knowledge, and networking for absence and disability professionals. Through our education programs, we deliver trusted strategies, tools, and resources to minimize lost work time, improve workforce productivity, and maintain legally compliant absence and disability programs.

We have over **1,200 employer and supplier member organizations**, representing over **19,000 absence and disability management professionals** from across the U.S. and Canada. Regardless of organization or department size, we have programs and resources that can help any company manage their integrated absence management programs.

Three Reasons You Should Invest

DMEC represents your audience.

78% of our member organizations are employers from companies of all sizes in the private and public sectors. 80% of the individuals representing those companies are decision-makers or influencers in the purchasing process.

DMEC positions you as a thought-leader and innovator.

We give you the opportunity to impact the strategic direction of the industry as well as develop cutting-edge education and conference offerings. As part of the DMEC community, employers look to you for solutions to their toughest challenges.

DMEC gives you the pulse on the industry.

Through our unique, employer-focused leave management, benchmarking, and hot-topic surveys, we keep you apprised of changes and trends in the industry, and topics covered in our webinars and conferences represent what's top of mind for employers. Access to this type of information ensures your products and services meet the needs of your customers.

With over 30 years serving the ever-evolving absence management industry, we know what employers are looking for as they build effective, integrated programs. DMEC's sponsorship, exhibit, and advertising opportunities allow you to position your company as a leader in the field and go-to resource for employers.
